

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	30 June 2026
Team ID	
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	Data Collection	Collect UNESCO World Heritage Sites dataset.Import data into Tableau.Verify data from official sources.
FR-2	Data Preparation	Handle missing values.Clean and standardize data.Create calculated fields.
FR-3	Data Analysis	Analyze sites by country and region.Analyze heritage categories.Identify inscription year trends.
FR-4	Data Visualization	Create map visualization.Create bar, pie, and line charts.Develop an interactive Tableau dashboard.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Interactive and user-friendly Tableau dashboards for easy exploration of UNESCO World Heritage sites.
NFR-2	Security	Ensure data integrity by using trusted UNESCO data sources and secure Tableau workbooks.
NFR-3	Reliability	Provide accurate, consistent, and error-free analysis and visualizations.
NFR-4	Performance	Dashboards should load quickly and respond efficiently to filters and user interactions.
NFR-5	Availability	Reports and dashboards should be accessible whenever required for analysis.
NFR-6	Scalability	Support future addition of new UNESCO sites and updated heritage data without affecting performance.
